Great things to do along the Great West Way.

Discover an essential strand of England on the Great West Way. Based on one of the first Great Roads commissioned by the Kings of England, the Great West Way winds for 125 miles through the very soul of England, from the capital city of London to the vibrant western gateway of Bristol.

The Great West Way brings you to world-famous sites such as Stonehenge, Roman Bath and Windsor Castle, but the real joy is in discovering somewhere different, a real slice of England that you can take back home with you – as memories, as photographs, or even as a bottle of craft ale or piece of local art.

You can explore by road, by rail or by water. Slow right down to the pace of two feet or two bike wheels, base yourself in one place for a while and find your own story on the Great West Way.
